

## **Creating Custom Skills: Speed Gesture**

This document will cover how to create a custom skill for your Speed Gesture, and in doing so will explain all of the configuration options for Speed Gesture.

1. This guide starts from the page of the Skill Creator you arrive at after you have selected the game (Please see Creating Custom Skills (Overview) for steps leading up to this stage)

Skill Creator	×
Speed Gesture Speed Gesture is a game where students are asked to perform gestures as they are announced.	
Length of Round:	60

Length of Round: This will determine in seconds how long a round lasts for the student.

Music Track: This allows you to select a specific music track for the student to hear when playing

**Difficulty:** This determines how long the student has to complete the gestures.

**Gestures you'd like to use:** This allows you to select which gestures you want the student to practice for this skill.
